Authorization for this examiner's amendment was given in a ^{personal} telephone interview with Paul Odell on April 12, 2006.

The application has been amended as follows: in claim 12, next to the last line, after "location", --that is both laterally—has been inserted; on the last line, after "peripheral", --attachment— has been inserted; and after "portion", --and upstream of said peripheral attachment portion— has been inserted.

In claim 13, next to the last line, after "slit", --in said flow direction—has been inserted.

2. The following is an examiner's statement of reasons for allowance: the amendments of 1/27/2006 coupled with the changes agreed to by the examiner and attorney during the interview of 4/12/2006 define over the prior art of record. The new subject matter, in combination with the other claimed elements, is not found in the prior art. Further, applicant has placed the previously indicated allowable subject matter into independent form.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
